EDUCATION

Stony Brook University, *B.S. in Biochemistry* | **GPA**: 3.71/4.00, *Magna Cum Laude*

Relevant Coursework: Cognition, Psychology, Statistics, Economics

EXPERIENCE

Project Management Intern Oct 2019 - May 2020

Syska Hennessy New York, NY

• Directed a 4-person intern team and owned ground-floor space programming for a 144,000 SF Hudson Yards mixed-use tower, reconciling structural, architectural, and MEP requirements over 5+ design cycles

• Delivered documentation 2-3 days ahead of biweekly QA deadlines while balancing competing vendor, grocery, and MEP requirements against a fixed structural grid and curved commercial facade.

• Ran weekly cross-functional working sessions across HVAC, structural, and architectural disciplines to align competing space requirements through the design development phase.

Quantitative Researcher Apr 2026 - Present

19V Capital New York, NY

• Designed and shipped a cross-asset research platform that vetted 100+ strategies across futures, commodities, crypto, and prediction markets, killing over 90% with pre-registered criteria.

• Grew the approval bar from a 6-step checklist to a 38-gate validation framework spanning statistical rigor, data timing, and real-world costs; the first strategy to fully clear it is now tracked live.

• Consolidated 170+ datasets spanning 15+ years of market history onto a governed data platform (Python, Pandas, AWS S3, GitHub CI) with automated guards against lookahead bias and data leakage.

• Built AI research agents (Claude Code) that automate portfolio-fit screening and post-trade attribution, plus a meta-agent that researches a domain and authors new agents.

Co-founder & Product Strategy Lead Oct 2020 - May 2022

@themath.ghost (TikTok) New York, NY

• Scaled the channel from 200K to 1.2M followers and 100M+ views in 18 months by engineering a data-driven content model using A/B testing, algorithmic analysis, and engagement analytics, with 8+ videos exceeding 3M views individually.

• Collaborated on end-to-end partnership deals from outreach to contract close, securing $15,000 in brand deals while ensuring deliverables aligned to client timelines and KPIs.

• Identified and validated high-retention content formats through iterating on hook structure, video length, and posting cadence to drive growth, achieving an average view count of 50,000+ per video at peak performance.

PROJECTS

Spread: Partiful Companion for Potlucks (**Next.js** + **Notion**)

• Identified a gap in Partiful's host workflow and scoped Spread, a complementary tool covering dish claiming, dietary tracking, and a host dashboard for events of 10 to 50 guests.

• Shipped V1 on a 5-day deadline for a real 15-guest surprise birthday: 5 Notion databases backing 13 API routes, guest-facing event page, and host-only dashboard in Next.js with TypeScript.

• Defined a Phase 1 to Phase 2 roadmap with measurable success criteria: launched with manual logging to gather labeled decision data for the AI dish suggester

SKILLS

Skills: Product Requirements (PRD), MVP Scoping, INVEST User Stories, Sprint Planning, Market Research, User Interviews, A/B Testing, Data Analysis, Data-Informed Decision Making, User Empathy, Team Empathy

Tools: Python, Claude Code, Notion, Figma, Git, Google Workspace, Microsoft Office, Word, Excel, Powerpoint

Interests: Social Psychology, Gaming, Cooking, Magic, Music Festivals, Billiards, Vibe-coding, AI
