EDUCATION

Stony Brook University, *B.S. in Biochemistry* | **GPA**: 3.71/4.00, *Magna Cum Laude*

Relevant Coursework: Cognition, Psychology, Statistics, Economics

EXPERIENCE

Quantitative Researcher Apr 2026 - Present

19V Capital New York, NY

• Built a cross-asset research platform that vetted 100+ trading strategies across futures, commodities, crypto, and prediction markets through a 38-gate (grown from 6) validation framework, killing 90%+ and advancing the first fully cleared strategy to live tracking.

• Consolidated 170+ datasets (15+ years) into a governed data platform (Python, Pandas, AWS S3, GitHub CI) with automated lookahead and leakage guards.

• Built AI research agents (Claude Code) that automate portfolio-fit screening and post-trade attribution, plus a meta-agent that researches a domain and authors new agents.

Co-founder & Product Strategy Lead Oct 2020 - May 2022

@themath.ghost (TikTok) New York, NY

• Grew to 1.2M followers and 100M+ views in 18 months by building a data-driven content model with A/B testing plus engagement and retention analytics, with 10+ videos passing 3M views each.

• Led brand partnerships from outreach to close, securing $15,000 in deals delivered on client timelines and KPIs.

• Identified and validated high-retention formats by iterating on hook structure, video length, and posting cadence, lifting average views to 50,000+ per video.

Project Management Intern Oct 2019 - May 2020

Syska Hennessy New York, NY

• Managed scope and deliverables for a 144,000 SF Hudson Yards mixed-use tower across 5+ iteration cycles, leading a 4-person team and delivering every biweekly milestone 2-3 days ahead of deadline.

• Owned ground-floor space allocation in AutoCAD around fixed plumbing and structural constraints, aligning 3 engineering teams in weekly meetings.

PROJECTS

TrackRx: Nursing Prerequisite Matcher

• Founded and shipped a free platform for pre-nursing students that checks classes against 1,500+ prerequisite rules covering 250+ programs.

• Validated the market gap through competitor research and prioritized the roadmap from 400+ users and 35 user state requests and tester feedback. Ran an independent QA audit, keeping published requirements 98%+ verbatim-accurate.

• Defined KPIs and built an analytics dashboard: ~90% of users completing the class check against a 40% target. Used insights to ship 40+ changes within 48 hours including distance, NCLEX filters, retake limits, and a best-match list.
